

### **Tubeworx capabilities – Hydraulic Industry**

- CNC bending for light wall and heavy wall tubes/pipes
- 37 Deg flaring from 6.35mm up to 114mm
- ORFS End forming direct onto tubes from 6.35 up to 38mm
- Non welded SAE flanges for Code 61 & Code 62
- Non welded Retaining ring for large bore tubes & pipes
- In House welding and fabrication
- Pressure testing
- Tube and pipe cleaning
- Sealing and packaging
- Stauff clamps
- Hydraulics spools

### **Tubeworx equipment**

- CNC mandrel benders
- CNC 37 deg and ORFS end forming machines
- 37 deg flaring machine for heavy wall tubing
- Heavy wall bending machine
- 3D scanning
